

**CLASSIFIED DOCUMENT**

**PROJECT NIGHTINGALE**

**AGENT PROFILE DOSSIER**

**SUBJECT: NIGHTINGALE-13**

**CREATION DATE: 2024-09-05**

**ORIGINATING DIVISION: TECHNICAL OPERATIONS**

**CLASSIFICATION LEVEL: TOP SECRET**

## **MISSION SUMMARY**

On **2020-02-10**, Nightingale-13 (codename: **Aurora**) was deployed as a technical specialist to support Operation **Blue Horizon**, a critical cyber intelligence mission targeting a high-value Soviet asset in Berlin. Aurora's primary objective was to establish a secure communication channel between the Nightingale safe house and the target location.

## **RECRUITMENT HISTORY**

Aurora was recruited on **2018-06-15** through a complex network of intermediaries, primarily utilizing online personas and secure messaging protocols. Initial contact was made via a cryptic message on a darknet forum, where Aurora expressed interest in collaborating with a Western intelligence agency. Following a series of encrypted meetings, Aurora was vetted and cleared for operation.

## **OPERATIONAL ASSIGNMENTS**

Aurora has been assigned to the following operations:

- 1. Operation Blue Horizon** (2020-02-10): Support cyber intelligence mission in Berlin.
- 2. Operation Starlight** (2019-09-20): Conduct technical surveillance on a suspected Soviet mole in Prague.
- 3. Operation Phoenix** (2018-12-15): Establish secure communication channels for a high-risk asset extraction in Budapest.

## **PSYCHOLOGICAL ASSESSMENTS**

Aurora's psychological profile has been evaluated through a series of assessments, including:

- 1. Operational Personality Inventory (OPI):** Aurora exhibits high levels of adaptability, creativity, and risk-taking.
- 2. Polygraph Examination Report:** Aurora has consistently demonstrated honesty and integrity throughout the recruitment and operational phases.

**3. Background Investigation Summary:** Aurora's personal history suggests a strong sense of justice and a desire to contribute to the greater good.

## PERFORMANCE EVALUATIONS

Aurora's performance has been consistently rated as **Exceptional**, with notable achievements in:

- 1. Technical expertise:** Aurora has demonstrated exceptional skills in secure communication protocols, encryption, and cyber operations.
- 2. Operational adaptability:** Aurora has consistently demonstrated flexibility and adaptability in response to changing operational requirements.
- 3. Risk management:** Aurora has effectively managed risk throughout operations, minimizing exposure to potential threats.

## PERSONAL BACKGROUND

Aurora's personal background has been thoroughly vetted, revealing:

- 1. Family connections:** Aurora's parents are both deceased, with no known living relatives.
- 2. Education:** Aurora holds a degree in computer science from a reputable university.
- 3. Financial situation:** Aurora's financial situation is stable, with access to secure funding channels.

## POTENTIAL VULNERABILITIES

Aurora's profile suggests several potential vulnerabilities, including:

- 1. Emotional attachment:** Aurora has demonstrated a strong emotional attachment to certain assets and operations, which may compromise their judgment.
- 2. Overconfidence:** Aurora's exceptional technical skills and operational experience may lead to overconfidence, increasing the risk of mistakes.
- 3. Secrecy:** Aurora's background and personal history suggest a strong desire for secrecy, which may limit their ability to form close relationships.

## CONCLUSION

Nightingale-13 (Aurora) remains a valuable asset to the Nightingale organization, with exceptional technical skills and operational adaptability. However, their emotional attachment and overconfidence may pose risks to future operations. Further training and support may be necessary to mitigate these vulnerabilities.

## RECOMMENDATIONS

1. **Continued training and support:** Provide Aurora with ongoing training and support to enhance their technical skills and operational adaptability.
2. **Risk management protocols:** Establish clear risk management protocols to ensure Aurora's overconfidence does not compromise future operations.
3. **Secure communication channels:** Maintain secure communication channels to protect Aurora's personal and operational information.

## CLASSIFICATION REVIEW

This dossier has been reviewed and classified as **TOP SECRET**. Distribution is restricted to authorized personnel with a **Need-to-Know** clearance.

## AUTHORIZATION

This dossier has been authorized for release by:

**Nightingale-7** (Senior Case Officer)
